# *Preface*

When the new school year began, a new building awaited the majority of its eager students. It seemed almost impossible that all the dirt, cement, and concrete blocks of the spring before, had turned into a beautiful, comfortable school building. We became aware of how much hard work and patience had gone into these building blocks.

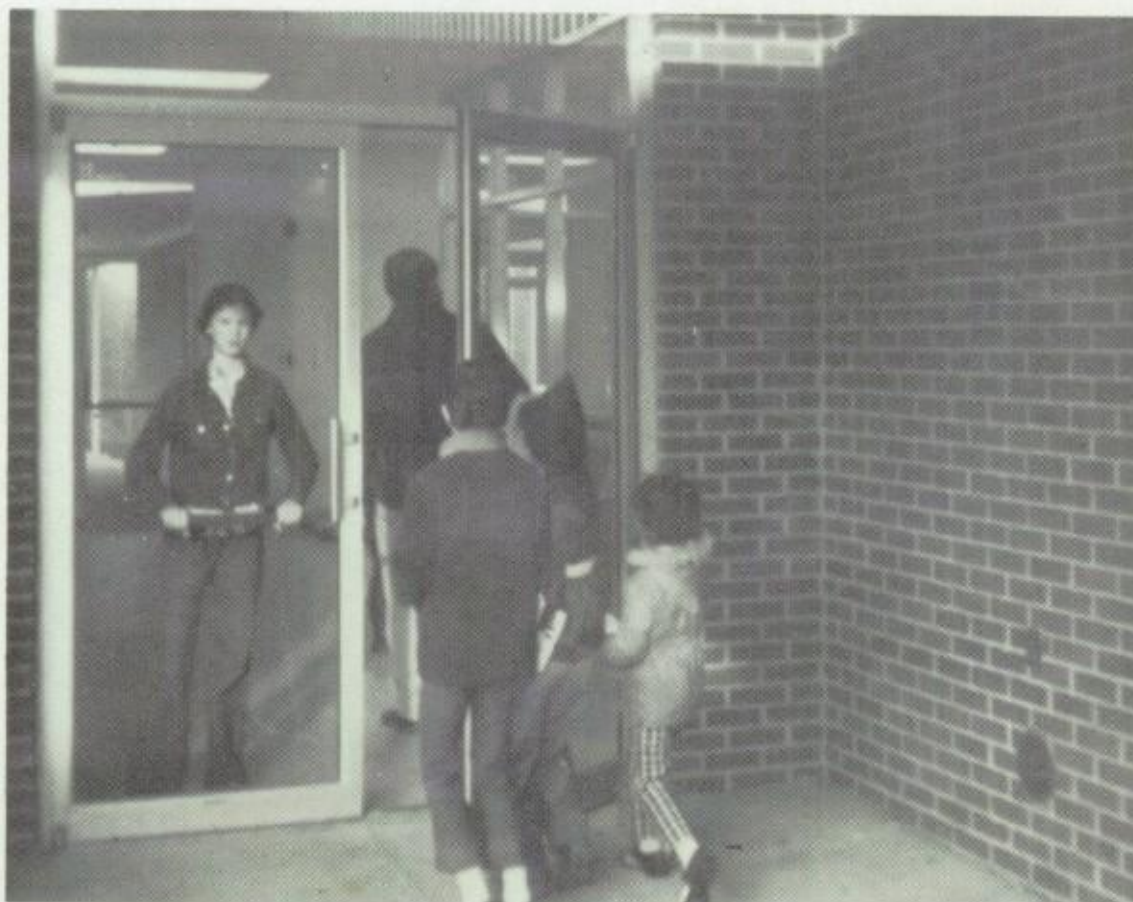

A student's life starts in somewhat the same way. Someone lays the foundation for learning, and it is up to each student to use much hard work and effort to build a life for himself. That life depends upon how much effort is put into shaping the building stones. Our lives can be as a strong, sturdy building, firmly planted on its foundation.

Even after a building is finished it must be kept in good repair so that it does not lose its worth. Students must do the same in their own lives. To build and construct is one project; to keep it beautiful after completion, one must keep building and trying.

## *Come, Explore Our New Building With Us!*

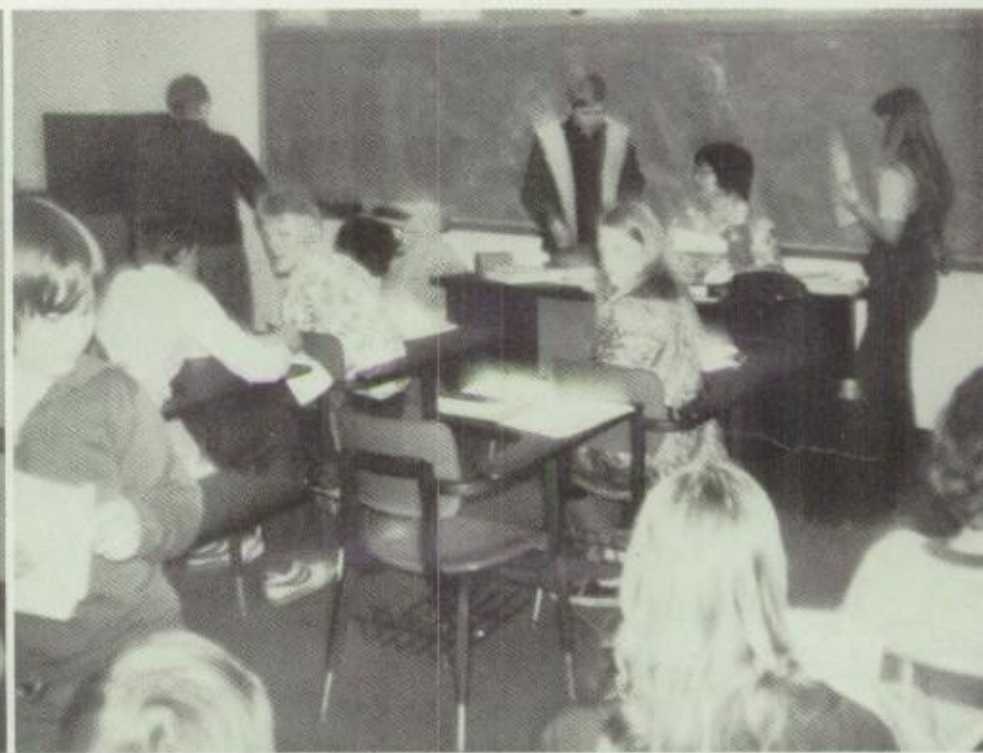

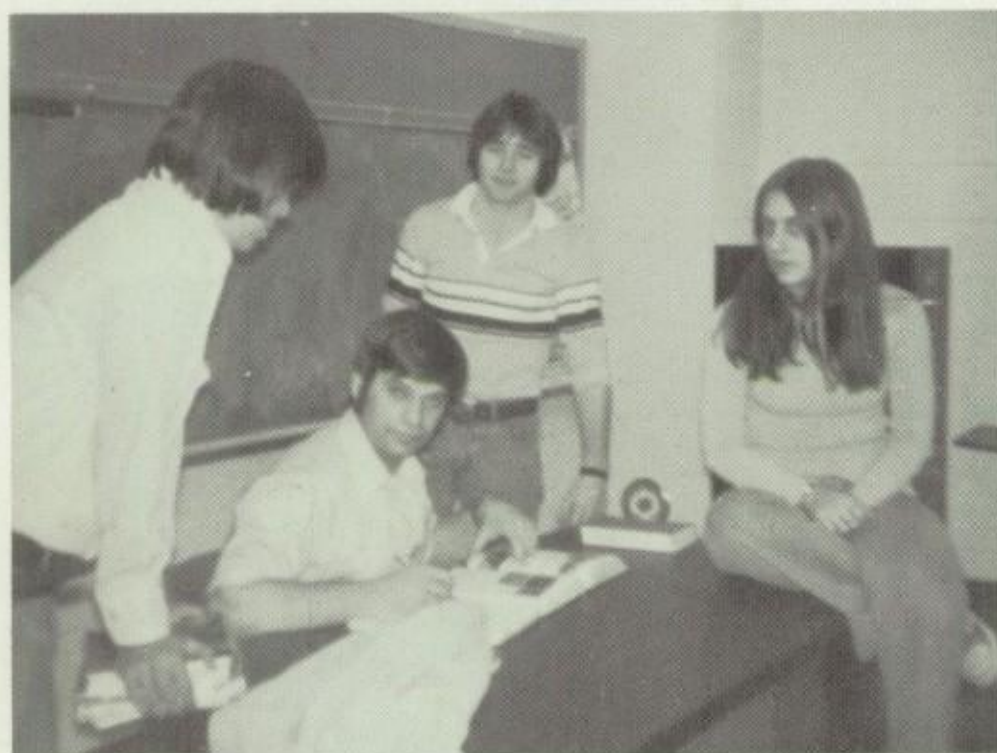

Last September, was an unusual month for the students at Community. The new school had been completed and its anxious students waited for the doors to open. After a couple of weeks of being totally lost in this beautifully constructed building, we finally learned our way to the classrooms and through the spacious halls. Grades 4-12 occupy the new building and the kindergartens occupy the gymnasium dressing rooms. Some other classes are also held in the portables. Finally, they are having the hope of freedom; the old buildings' remodeling is almost complete, and by the middle of March grades K-3 should settle into a more convenient atmosphere. So while we wait, come explore and behold the wonder that awaited us last fall!

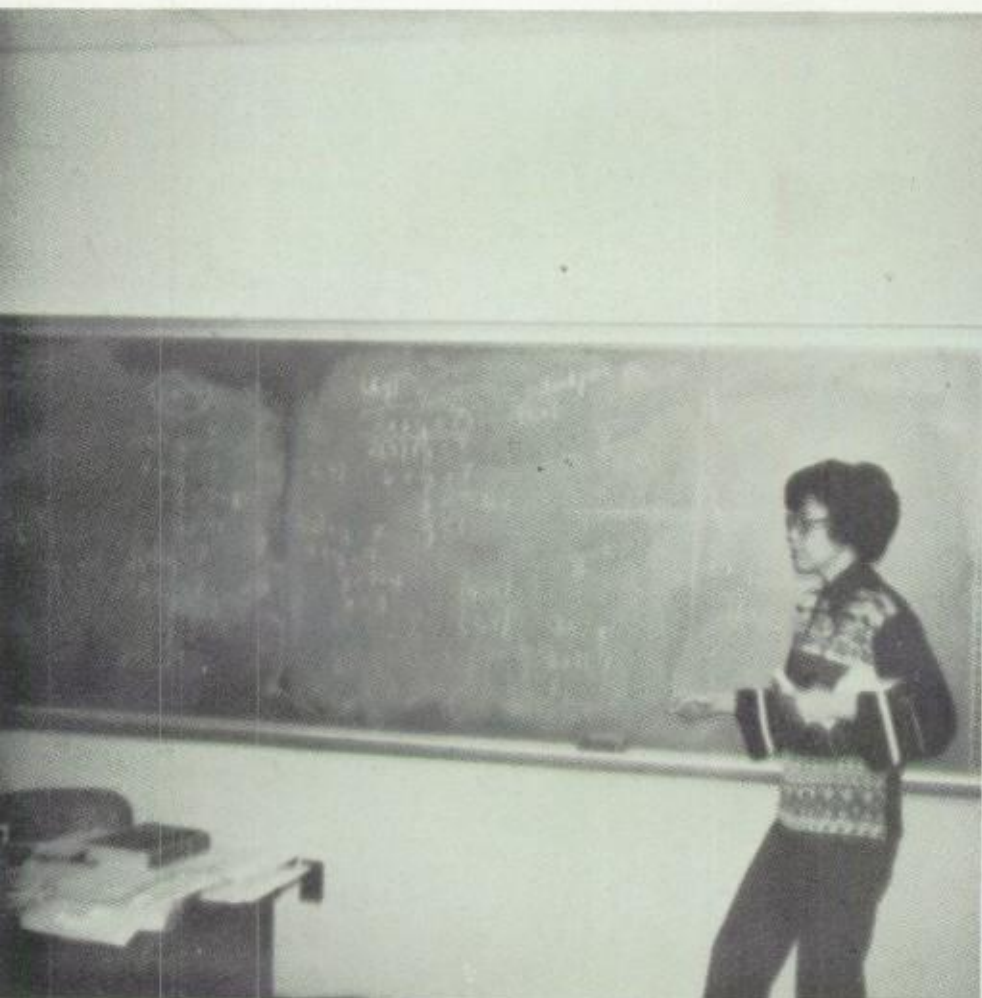

Tour of the new Building

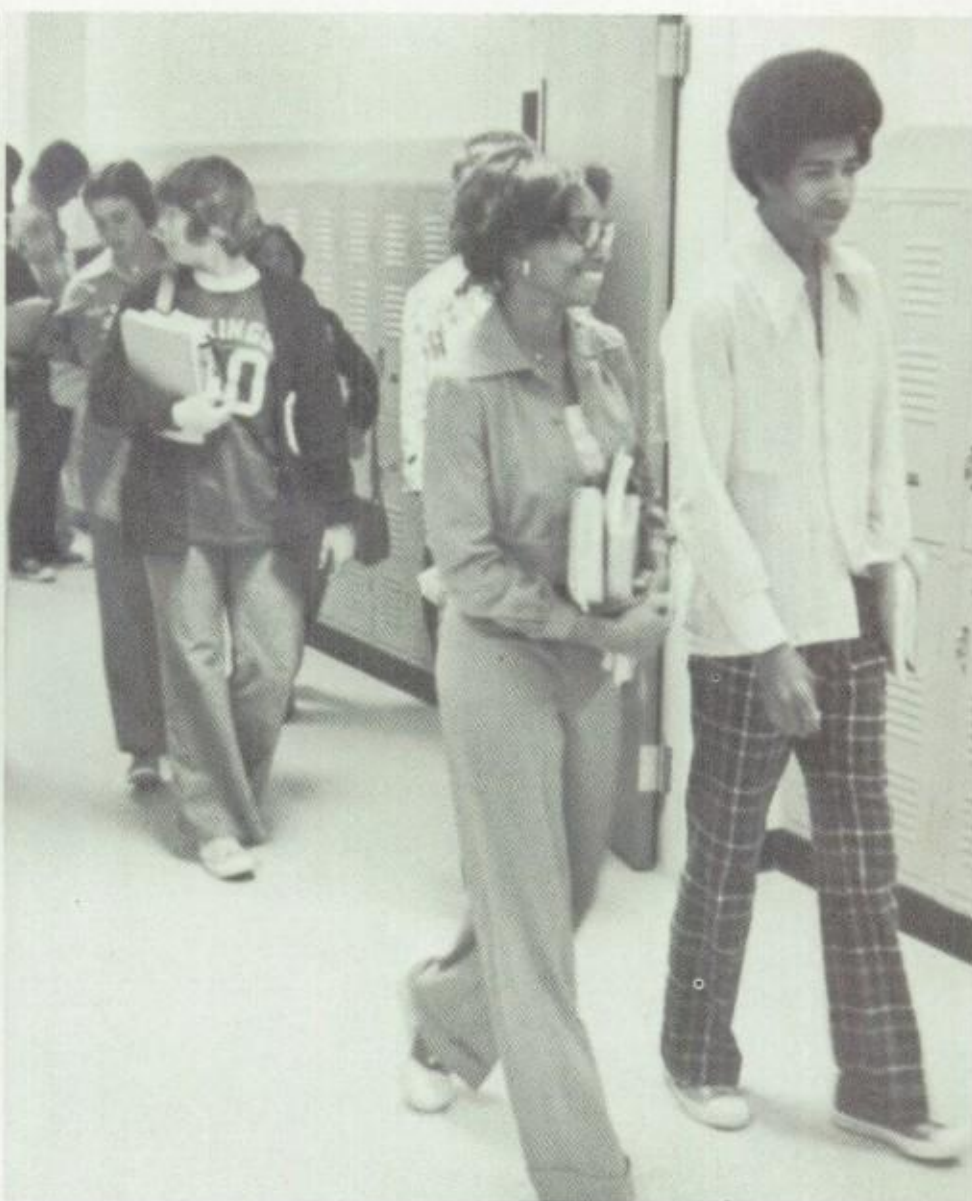

The Library is the Central Room for both Elementary and High School

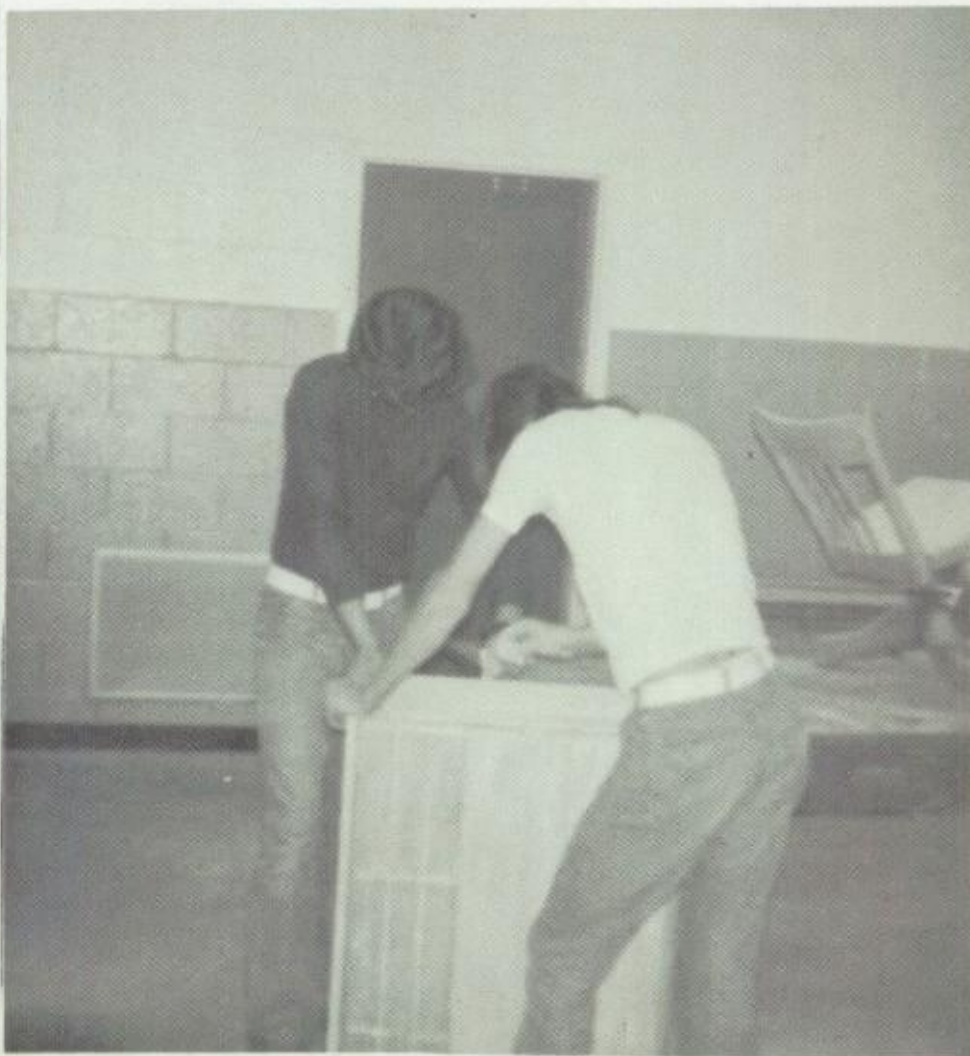

Math rooms need plenty of board space.

Our new spacious hall ways

Our new shop gets the job done.

Our typing room new and efficient

General science room devoted to Jr. High

Biology room, modern and up to date

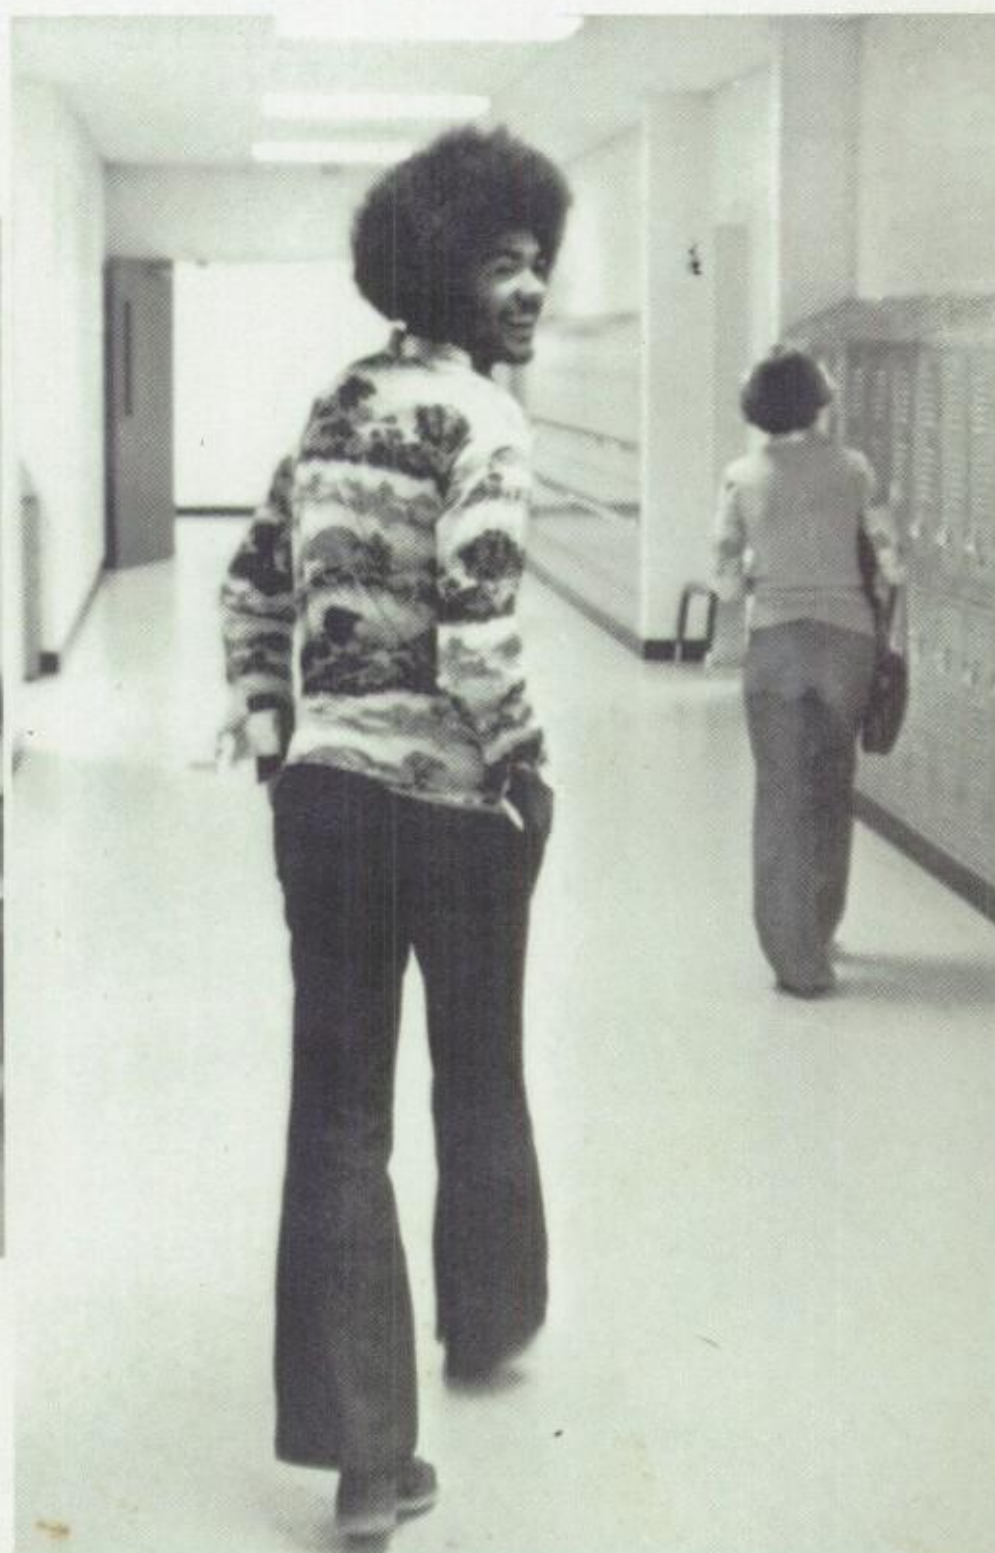

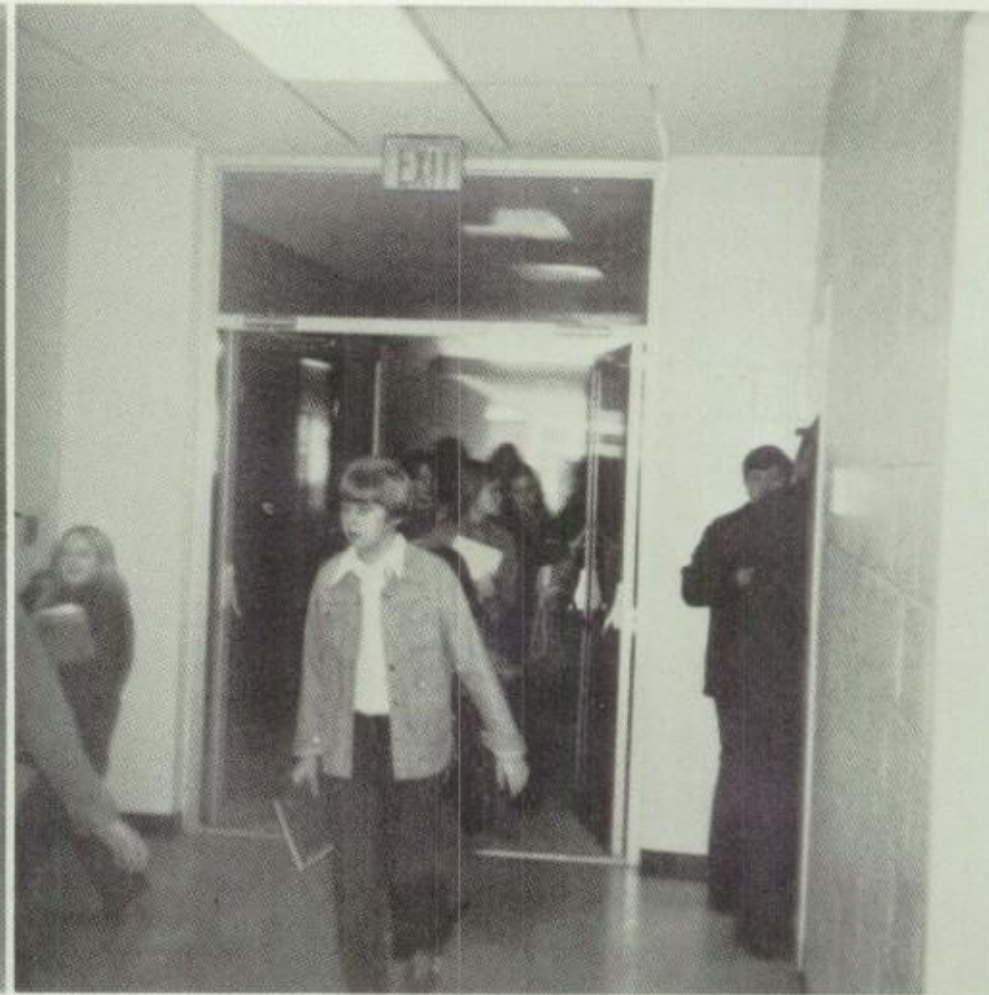

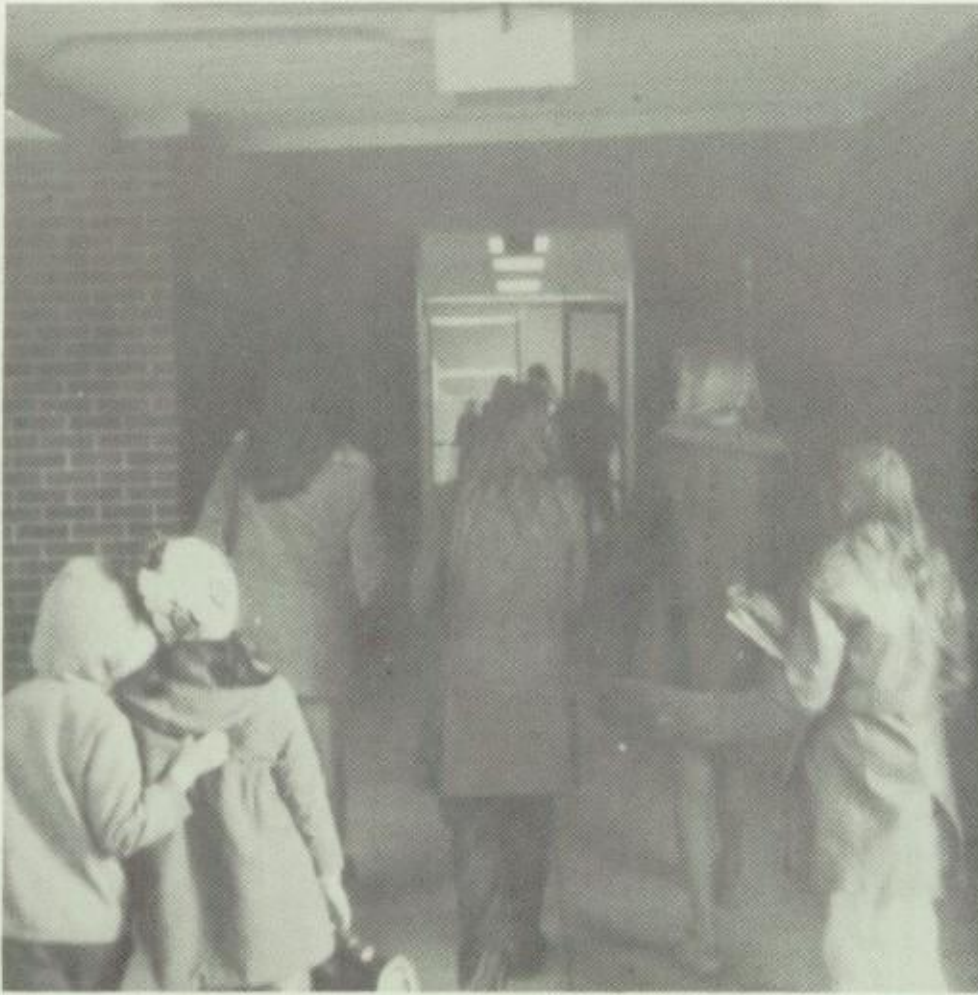

The Home Economics room, "A Better Way!"

Elementary makes use of some of the classrooms

## *Good-Bye Seniors*

Each took his own turn, we passed through the door slowly our flowing graduation gowns rustling with each practiced step. We performed every movement with confidence. We knew just what to do, but tomorrow was another dream just as today had been for so many of us. Now the question is, "Where do we go from here?" We know where we have been, it is where we are going we are not sure of.

The Senior Class of 1977 leaves you, the fellow students and faculty, with our never ending Super Spirit! We wish you luck, life, love, and laughter. Our memories will be forever in our minds and hearts. We leave now with determination! May our Spirit live on, and to you we say, "Goodbye!"
